

Winter House - Nagasse. Along water-front.

Man + 10 yrs. old. (40 yrs?) There's a mud-back horse that was demolished and re-built by a mason builder of the area. They move into the house after Ramadan is about the end of October. Here in

first to the ~~rooms~~ opening on to the winter court and when it gets colder they move into the back rooms. (Attempt- ively they may be using the 2 rooms

as they use them in the summer. There's a front room is a living room, bath, ~~living room~~ back room is a bed-~~room~~ room. an

the owner is an importer-exporter. an elderly gentleman, one of those 3 sm-m-lans was a navy captain, as he put it. 35 family members live in the house.

It cost ~~2000~~ more to build (in 1963). In 1973 this amount approximates 6-7000K. Before (1963) 1 bag of ~~concrete~~ cement cost 400 baiza - now it is 1.500 baizas. mason builder was paid 12 baizas per day. It is not paid

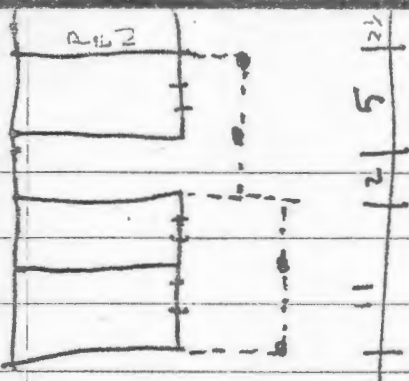

4 baizas p/day. The village has a pop. of 8000. 18 children from the village go to the school in 5th year - the boys' children + some neighb-

ors children. They use his car. No gov. school in Nagasse - there is a private school.

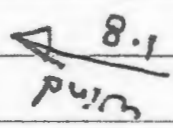

Summer house at Majis
14:00 - Oct. 6

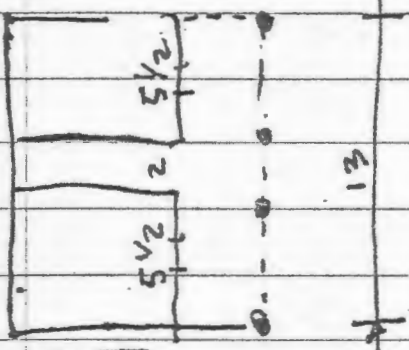

Passage ways open all summer

six of the eleven children gathered around seemed to have some sort of eye-silment - squint etc.

SUMMER HOUSE - in village. in-land.

new house is 10 mins. walk from winter house. It is all Barasti - with 2 rooms, the Haji's & his eldest son-in-law's rooms ~~the~~ having bad-geers. The bad-geer's cloths were taken down yesterday (1st week in Oct.) as it had become noticeably cooler in the evenings. They will put up again in 6 months time. They had also built a wind-break barasti wall at the Haji's end of the house. A yr. ago they had roofed the house with corrugated sheets over which they laid Barasti. The Barasti has to be replaced every 3-4 yrs. The summer house is about 50 yr. old or more. Everyone makes his own Barasti house. One old carved door used to be made locally. Now only in Dubai. Cost 4 rials.
